

# Train-the-trainers events for Chinese managers and teachers (Italy,2016)

Chunlong Wu

National Technological Innovation Method And Tool Engineering Research Center,  
Hebei University of Technology

Jul. 11 - 15, Dr Wu of Hebei University of Technology went to the Politecnico di Milano, Italy to attend a week of Train-the-trainers events for Chinese managers and teachers.

Thematic exchanges covering many aspects in product virtual prototype, including multi - sensory design and interaction, haptic technology and interface design, human perception and cognition, human - computer interaction, and design based on Affordance.

The exchange also includes a discussion of the concept of teaching technology and product design and technical innovation methods, we also visited virtual prototyping lab.

Through this thematic exchanges, we were learning more of cutting-edge research in the field, strengthened the Center communicate with their European counterparts.
