

A public square in Milan, Italy, featuring a large, modern fountain with multiple water jets. The fountain is surrounded by people, including children and adults, who are playing and walking. In the background, there are modern buildings with large glass facades. The scene is captured during the day, with a clear blue sky and bright sunlight reflecting off the water and the wet pavement.

Summer School in Politecnico di Milano 11-15 July 2016 Virtual Prototyping

Participant: Iuliia Shnai as a student and
observer

Description

- The 5 days of Summer School gather best of prototyping from Politecnico professors and invited professors from different countries :Italy, Spain, USA, France.
- This summer school presents special interest for Phd students in the field or related fields.
- Main attendants are students from Italy

Special interest

- There is a number of laboratories which maintain the practical experiments and research of prototyping

Lab1

Lab 2

Lab 3

Lab 4

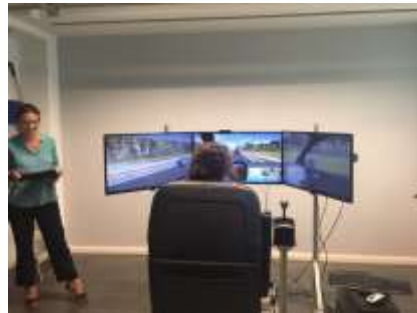

3-d printers (steel)

Lab 5

Oculus rift and other augmented reality objects

Driving simulator and virtual 3d scanner

3-d printers (cardboard)

3-d printers (plastic)
